

MEMORANDUM

To: All Regional Medical Laboratory, Inc. (RML) Clients

From: Regional Medical Laboratory, Inc.
Sonya Bruening, BS, MLT (AMT), Manager of Flow Cytometry
Adam Hoffhines, M.D., Chief of Flow Cytometry
Gerald C. Miller, Ph.D., Chief of Immunology

Date: August 22, 2019

Subject: Neutrophil Oxidative Index Test

Regional Medical Laboratory is pleased to announce modifications to our Neutrophil Oxidative Index test intended to improve the delivery of results and eliminate redundant information. **Effective 9/2/2019, a new Neutrophil Oxidative Index test with discrete general laboratory results will replace the current Neutrophil Oxidative Index test with pathology interpretation.** This new test provides all relevant test results reported as discrete general laboratory values, with appropriate reference ranges and interpretive data reported, as applicable. A separate pathology report will no longer be issued alongside these general laboratory values.

TEST NAME	TEST MNEUMONIC	TEST NUMBER	CPT CODE
Neutrophil Oxidative Index	Neutro Ox Index	<i>NEW - 3870659</i>	86352

Additional test build information was sent out on the 8/5/19 Livewire notification. Please see RML Online for additional information including LOINC codes, specimen information and testing schedule.

For questions, concerns or additional information, please contact Dr. Adam Hoffhines at 918-744-2553 X14155, Dr. Gerald Miller at 918-744-2553 X15543 or Sonya Bruening at 918-744-2500 X18213.
