

How to properly wrap a Requisition around pap slide in case.

The availability to easily read and process these specimens will increase productivity and reduce the amount of errors in the order entry process.

1. Start with Req flat with Slide Card to left.

2. Fold Req in Half with Pt. name still on top.

3. Fold Req in Half again w/ Pt. name still on top.

4. Fold Right side under leaving a 1/2 inch on left side.

5. Place Slide case in pocket made in Req, with Pt. name facing up.

6. Fold Req back down sealing slide case in pocket.

7. Place Rubber Band around twice below Pt. name.

8. Slide case and Req should look like this when done.
